Late News From Every Corner of the Territory.

Mrs. Ed Tewksbury of Globe killed a huge rattlesnake in the kitchen a few days ago. It struck viciously at her before it was dispatched with an ax. The snake had twelve rattles and a button.

At a meeting of the Arizona Pioneer Historical society at Tucson last Friday night Judge W. F. Scott was elected president of the society vice Fred G. Hughes, who is now a pioneer in other lands.

We learn that L. E. Divilbess has been appointed postmaster at Holbrook. He has our congratulations. He will make an efficient and courteous official, and the Argus extends its best wishes.—The Argus.

The school at Winslow closed down last week on account of the cold weather. The school house will be heated by a hot air furnace, but the furnace has not arrived, although it is expected every day.—The Argus.

Miguel Peralta, a bookkeeper at Nogales committed suicide by shooting last week. Deceased was an old and well known citizen of Pima county, having resided many years in Tucson and was also at one time in business at Crittenden. He was a native of Ures, Sonora, but was raised and educated in California.

Walter G. Shanley was caught under the cage in the Hoosier mine at Globe the other day, and crushed under the weight of 1,700 pounds. The engineer realized a mistake had been made and instantly raised this cage, but none too soon, for Shanley was already unconscious and in another minute would have been dead. He will recover.

Another meeting of citizens will be held at the court house next Thursday evening at 7:30 o'clock, to hear a report from the subscription committee appointed at a previous meeting to solicit subscriptions towards defraying the expenses of Rev. I. T. Whittemore to Washington in the interest of the Buttes reservoir.—Flores Tribune.

Joe Ford has jumped the flat. We do not mean by this that Joe has quit the flat, but we mean that he has found a location on all the land lying along the flat north of Nogales. The land is claimed by the railroad company but Joe questions that right to more than fifty feet on each side of the track and has filed a homestead on all land outside of that distance within a certain limit. If he makes it stick Joe will soon be a bloated land owner.—Nogales Vidette.

Monday and Tuesday Mr. R. C. Lowell, the concrete walk contractor, was at Nogales, and during his visit he closed enough contracts for sidewalks along Morley avenue to justify bringing in his men and outfit and beginning work. Mr. Lowell has had long experience in his line in Sacramento, Woodland, Maryville and other towns in California, and Phoenix and Tucson, and his work is guaranteed first class. He will cause Morley avenue to very shortly present a very different appearance.—Nogales Oasis.

Yesterday United States Consul R. Hughes Long received from Guaymas a report from Consular Agent F. M. Croker that on the 9th of October one Captain Porter, from San Diego, California, accompanied by a companion named Johnson, set sail for Tiburón Island, going in a small sail boat, and in search of shells and other curios. On the 29th ult. a Mexican sailing vessel, engaged in the gulf trade, came into the harbor at Guaymas and reported that when near Tiburón a few days previous they sighted the sail boat, which was in possession of about 100 Seris Indians, savage inhabitants of the island, whose hostility to white men is too well known. The Indians were very hostile in their attitude, and fired at the Mexican vessel. It is feared that Captain Porter and his companion suffered the same fate as did Robinson of Phoenix and a companion who landed on Tiburón some three years ago.—Nogales Oasis.

AT THE BREAKFAST TABLE.

It seems likely that the history of the East India company, which established the British empire in India in the days of Lord Clive, will be repeated in Africa. A dispatch from Paris states that a British syndicate has obtained sole control of the trade of the Sudan in exchange for the payment of an annuity to the Egyptian government and the defrayal of the expenses of military occupation. This company will immediately reconstruct and work the railway from Suakin on the Red sea to Berber on the banks of the Nile.

We have begun to look upon suicide or the immolation of women as a thing of the past, and at all events, as something absolutely impossible in a civilized land. But the other day a courier reached Wichita, Kan., and brought the news of the self destruction of an aged squaw, named Mamsookawam, who, following the traditions of her tribe, dressed herself into a fire. She gathered together her children and grandchildren and blessed them all and burned slowly as her relatives sang a funeral dirge. This horrible incident occurred in the Comanche Indian reservation.

In the British city of Manchester the intention of the proprietors of cotton mills to reduce the wages of the operatives 5 per cent has been submitted to arbitration, and both sides have agreed to abide by the result. Lord Rosebury addressed the Manchester chamber of commerce the other evening, and, in reviewing the past, indicated that there was no intention of either the conservatives or liberal party in the British house of commons departing from the principles of free trade.

The London Daily Chronicle has made this statement: "We are informed that the Spanish government signed contracts last week with an important firm of British ship builders by which it acquires some cruisers, armed with quick firing guns, which the firm had nearly completed for another government, whose consent, presumably, Spain had secured

to this arrangement. When the question of finance was raised by the constructors the Spanish minister of marine, Admiral Bermejo, represented that in the event of war the Spanish government could count upon an internal war loan."

An ex-convict who has just been released from the New York state prison, and who resides at Waupun, Wis., is giving positive proof of his intended home stay for the future. For during his imprisonment he obtained the confidence of a Chicago thief, who told him that he was one of a gang of thieves who being unable to dispose of certain booty in Chicago took it to the town of Elba, Wis., and buried it on a farm. The ex-convict on leaving the prison immediately went to the farm and has already recovered a number of gold watches, rings and diamonds, and has made known his intention of returning the property to the owners upon proper identification.

There is something humorous in the way in which a bold burglar, with an evident desire for all the comforts of home, leisurely ransacked a house on Michigan avenue, Chicago, the other night, and gently chloroformed one of the boarders. He then took a bath and arrayed himself in his victim's best clothing and departed, leaving his cast-off garments behind him.
